Wall-Mount Faceplate Package

Part of the Techconnect 3 system

Techconnect is a modular audio-visual faceplate family engineered especially for AV installers. A "surround" fits to a backbox (or "mudring" if your wall is hollow), then the modules fix in place to complete the installation. For 99% of professional AV installations the same set of modules are required, so Vision offer a simple package that contains a basic selection of modules as a starting point. Just select the length of the cable package you need to go with it.

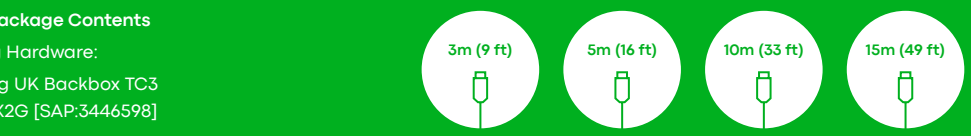
Comes with your choice of complementary Cable Lengths



Matt White

Pure white with a chiselled profile, Techconnect3 also has 11 mm of flat space above and below the connectors for information or company branding stickers.

Screw-In Modules

The modules have a tab that hooks into the surround at the bottom, then a couple of turns of the pre-installed screws locks the modules into place.

Stronger

Techconnect3 has shorter modules and extra ribbing to reduce module flex. On parts where flex is desirable to avoid shattering ABS plastic is used.

Improved Fit and Finish

Techconnect3 has more space behind the modules stash cables, and narrower and more even gaps between modules.

TC3 Table Faceplate

Part of the Techconnect 3 system

Part of Vision's Techconnect modular AV faceplate family, this table surround allows seamless AV integration into boardroom and meeting room tables.

Lifetime warranty

Tactile Quality
Lift the lid and feel the weight. Strong, finely finished materials have been selected to make this product.

A4
The bezel is very similar in size to an A4 piece of paper – slightly narrower.

Cable Tie Points
Vision takes ease of installation seriously. Installers will enjoy multiple 6 mm / 0.23" fixing holes for securing cables underneath the chassis.

Optional Power Sockets
Choose Vision's Schuko (EU) or 1363 (UK) power socket modules (Part numbers TC3 PWREU or TC3 PWRUK).

Plug In And Close
A 15 mm / 0.6" gap around the lid means you can plug-in or pull-up, then close the lid to get back table space for your meeting.

Slow-Close
Throw the lid closed and a damperslows the lid, closing silently.

9-Module Capacity
Mix and match the modules you need in a future-proof enclosure.

TC3 SURRTB EU SAP: 4875951 US SAP: 13445531

Fits into table
Chassis and surround included
Accommodates up to 9 modules (not included)

TC3 Control Module

Part of the Techconnect 3 system

Techconnect Control is the most flexible professional AV control device available. This simple control panel controls all of your AV equipment – projectors, flat panels, amplifiers, and screens – simultaneously and only presents users with the functions they use every day. No tech support calls and no losing remote controls. All in a secure Techconnect module. Perfect for presentation rooms or meeting spaces.

TC3-CTL EU SAP: 3446596
US SAP: 12939501

Control projectors etc via IR, RS-232, RS-485, and 12V

Schedule commands

Powered by mains power or batteries

vav.link/tc3-ctl

Simple Setup Mode

Hold down the two middle buttons to put into learn mode, point the original device remote at the front of the Control and program a code per button.

Extension Keypad

If more than six buttons are required the software allows you to add another Control as an extension keypad.

Code Library

An integrated library of IR and RS-232 codes speed programming up. For example if you learn the codes for a projector those codes will be automatically uploaded to the database so that the next installer who needs those codes will find them in the software library.

Battery

The Control comes with a mains power adaptor, but can also be powered by 2 x AAA batteries (not included).

Duplication

Programs can be saved to a PC making duplication for a roll out simple.

Delay

Commands can be delayed up to 60 seconds. For example when you turn a projector on it takes time to warm up so the motorised screen doesn't come down until the projector is ready.

Labels

Clear caps unclip off the buttons from the front to allow label changes.

Easy Wiring

To speed up installation it comes with a short 9-pin serial cable which plugs into the phoenix port on the Control.

Backlit buttons

Backlit buttons are easy to read.

Advanced Setup Mode

Connect to a PC and use the included software to allocate multiple RS-232, IR, and 12v triggers to each button.

Scheduling

Once programmed a schedule can be setup. e.g. turn the digital signage in a store off at midnight every night.

TC3 50w Amplifier

Part of the Techconnect 3 system

Lifetime warranty

By using latest low-impedance digital amplifier chip technology the new Techconnect Amp module outputs a massive 2 x 25 watts RMS (at 8 ohms) but fits into the space of a double-space Techconnect module.

Suited to meeting spaces, museums, and presentation suites.

TC3-AMP EU SAP: 3446595
US SAP: 12939499
TC3-AMP+SP-1800 EU SAP: 3692237
US SAP: 70017401
TC3-AMP+CS-1900 EU SAP: 5356158

Extremely small 2 x 25 w (RMS) at 8 ohms
Digital Amp
2 x Stereo inputs (Input 1 duplicated on front and rear)
IR Remote control included

vav.link/tc3-amp

Front Panel Input

Two Inputs are wired into the rear with removable phoenix connectors, but Input 1 is also duplicated on the front panel with a minijack socket for convenience. This "half-normalled" input disconnects.

Remote Control

A remote control is included and IR receivers are positioned on the front and rear for integration with a control system such as the Techconnect Control. Note: there is no tone control with this amplifier. Our spare remote controls have tone buttons but they do not work with this product.

D-Class Amplifier

Digital amplifiers use no power unless they are amplifying program, so even on at full volume; unless it is receiving input it is effectively off. Digital amplifiers also have the advantage of running cold so a bulky heatsink is not necessary.

Preset Memory

By default when power is activated the Techconnect Amp turns on and resumes the most recent settings. For hospitality applications it can be set to return to a preset input and level whenever it is powered on – for example in hotel guest rooms.

Easy to Install and Uninstall

A robust module that is easy to install or remove and disconnect from the front. Removable phoenix connectors allow non-technical end users to uninstall it very easily if required.

Power Four Speakers

Don't let size deceive you: this Amp can drive into a 4 ohm load allowing you to power up to four 8 ohm speakers (or two 4 ohm speakers).

Close at Hand

Can be positioned anywhere in the room making it perfect for training rooms, boardrooms, and classrooms.

Integrated Techconnect Family

Included is a single-gang backbox and surround, or alternatively you can mount it in a double-gang surround with other Techconnect modules.

Secure

Ideal when you don't have furniture to sit an amplifier on, and because it is mounted to the wall it is much less obvious as a target for theft.

Cables Included

Speaker cable is included plus short input cables are included for connection to the rear of adjacent input modules on the Techconnect.

Tactile Dial

A simple clear control interface makes the product easy to use long press on the dial to power on and off. Short press to change input.

White Minijack Cable

This simple patch cable connects your phone or laptop to most audio systems. Minijacks are also known as 1/8", or TRS jack (tip-ring-sleeve) and 3.5 mm / 0.14" jack. They carry a "line-level" signal.
Includes female-minijack to phoenix adaptor, to allow connection to rear of Techconnect modules.

Does Vision have any floor stands for Hub 2?

Yes! The VFM-F10 was designed for Hub 2 compatibility.

Does the standard VFM-F10 fit Hub2?

Yes! Hub2 uses a 350 x 350 pattern which the universal mount on the F10 fits.

Does it rotate?

Yes. The universal VESA mount rotates. The rotating mechanism can be removed.

Does it tilt?

Not as standard, but the VESA arms can be replaced with arms from Vision's VFM-W4X4T to make it tilt if necessary.

As standard, this floor stand holds the display at a 7 degree angle. That is more upright than the 12 degrees of the Steelcase stand. We think 7 degrees is better to cut glare.

Does it have cable management?

Yes. Cables can be concealed all the way down the legs, and hold the cables so they don't get in the way of the wheels as you move the stand.

Can the APC battery fix to this floor stand?

We're working on an adaptor to support this. ETA early 2020.

Is the shelf detachable?

Yes. If the user doesn't want it just leave it off.

Does Vision have a wall mount for Hub 2?

Yes. VFM-W4X4. It's the same universal mount that comes on the F10 as standard.
