

5.25" Woofer 50w loudspeakers

Wall brackets included

White, sold in pairs

Vision's SP-1801 professional wall mounted loudspeakers are super-easy to install, look beautiful, and produce rich and powerful sound.

They are 240mm tall and use a 5.25 inch woofer – the most popular size for classroom, meeting room, and boardroom applications.

Broadband

These loudspeakers use one broadband driver.

Rugged Grille

A metal grille protects the drivers from physical interference.

Tough Finish

Constructed with tough ABS plastic, the finish withstands the rigors of the professional use.

Pro AV Applications

In small to medium presentation environments a wide dispersion is generally more important than microphone feedback management, so no horns are used.

C bracket

The adjustable brackets allow the installer to easily angle the speakers. Or leave the brackets off and use as shelf speakers.

Note

These are passive loudspeakers – there is no amplifier built in – so they need to be used with an external amplifier.

Bass Reflex

A bass reflex port allows greater excursion of the woofer, allowing the woofer to produce lower frequencies, and the phase-delayed movement of air from behind the woofer to the front reinforces the bass even more.

SPECIFICATIONS

PRODUCT DIMENSIONS

244 x 180 x 174 mm (tall x wide x deep for each speaker)

PACKAGED DIMENSIONS

440 x 280 x 215 mm

PRODUCT WEIGHT

4.2 kg (per pair)
