

Frame which accommodates four modules (not included)

Fits to standard 65mm/ 2.56" Le Grand trunking

This surround is part of Vision's Techconnect modular faceplate family. Just fix modules in place, then fix to Le Grand trunking.

4-Module Capacity

Mix and match the modules you need in a future-proof enclosure.

Fixes to Le Grand trunking

Techconnect modules fix into a surround, which in turn fixes to a Le Grand trunking.

Future-proof

If you break a module or need to change it in the future, just replace that part - not the entire faceplate.

Flexible

Get to site and the client changes what they want on their AV faceplate? No problem.

Strong

Techconnect parts are robust for the rigours of every day use. They include strengthening ribs and reinforcing where required.

Proven

For over 15 years Techconnect has improved and developed into one of the most popular AV faceplates in the world.
