

Universal projector ceiling mount with telescopic pole

Overall length 440-735 mm

Tilt adjustment at top for sloping ceilings

Pitch and roll adjustment at bottom

Webcam adaptor included

The TM-TELE Techmount is a projector ceiling bracket for anchoring any data projector safely to a ceiling. The telescopic design allows fast deployment and adjustment without the need cut and drill the pole. It has a greater range than most other telescopic mounts and the pole can be removed for “flush-mounting” the projector as close to the ceiling as possible. *Note: unlike the TM-1200 the length of this bracket cannot be extended.*

### One-Man Installation

Thoughtful design detail include a length adjustment clamp system which requires only one hand.

### Sloping Ceilings

A tilting mechanism is included which tilts to a full 90 degrees, allowing you to use the bracket as a boom if need be.

### Safety Approved

A back-up fall-arrest tether is included which secures the projector to your bracket, and the pole has a mechanical stop so that the two parts of the pole cannot be separated. Vision recommends a maximum safe working load of 10kg which is well within the limits of the product and meets the BSi installation standard specification (PAS122:2009).

### Easy fit

Projectors have threaded inserts in the bottom for attachment – but not all use the same diameter screws so Vision includes a selection to suit most projectors. Simply locate the “spider” arms on our bracket over the attachment holes, and insert a screw into the projector.

### Cable Management

Vision’s clever system leaves cable access clear – even for big VGA connectors.

### Tools Included

A spanner and pin-hex key are included. Vision also includes a hex-key bit for a power drill to speed up installation.

### Secure

Quick-release mechanisms make life easier for thieves, so the TM-TELE is secure and features security bolts.

### Webcam Adaptor Included

This mount now includes a universal webcam bracket for mounting a USB camera safely to a ceiling. Just replace the spider assembly at the bottom with the adaptor included. It has a standard tripod mount screw that fits any webcam, including Logitech Brio, MeetUp, Rally, or any Huddly cameras.

### Flush-Mount Option

The pole can be removed for “flush-mounting” the camera as close to the ceiling as possible.

### Telescopic

The overall length is between 440-735 mm (17.3" – 28.9"). *Note: the length of this bracket cannot be extended.*

### Ceiling Trim Disc

For applications where the pole drops down through a hole in a false ceiling, a plastic trim disc is included to tidy the hole.

## SPECIFICATIONS

### BOX DIMENSIONS

395 x 155 x 85 mm / 15.6" x 6.1" x 3.3"

### PACKAGED WEIGHT

3 kg / 6.6 lbs

### SAFE WORKING LOAD

10kg / 22.05 lbs

### COLOUR

Satin White

### ACCESSORIES INCLUDED

1 x H50 Pin-Hex key 1 x H50 power drill hex bit 1 x 17mm (0.7")  
Spanner 4 x M3 40mm (1.57") screws 4 x M4 40mm (1.57") screws  
4 x M5 40mm (1.57") screws 4 x M6 40mm (1.57") screws 4 x M2.5  
40mm (1.57") pan slot 1 x Safety Tether 1 x Ceiling Trim Disc 1 x  
Webcam adaptor

### WARRANTY

Lifetime return-to-base

### COMPLIANCES

RoHS

### PRODUCT WEIGHT

2.7 kg / 6.0 lb
