

- Adaptor that fixes webcams to any of Vision's projector ceiling or wall mounts
- Standard tripod mount screw fits any webcam
- Fits Logitech Brio webcam for Microsoft Whiteboard
- Fits Huddly cameras
- Fit Logitech MeetUp
- Fits Logitech Rally camera

This adaptor allows Logitech's MeetUp to attach to all of Vision's projector mounts. Some teaching applications call for MeetUp conference systems to be ceiling-mounted in classrooms.

Attaches to...

Any of Vision's projector ceiling brackets: TM-TELE or TM-1200. Or Vision's TM-ST2 wall boom.

Ready for MeetUp

The Meetup bracket is secured to the adaptor. The unique features of the MeetUp means teachers can teach students in a classroom and remote students at the same time.

Works for all Webcams

Fits Logitech Brio webcam for Microsoft Whiteboard, or Huddly cameras, or indeed any webcam with a camera tripod fitting.

Easy fit

The webcam fixes using the standard 1/4-20 UNC tripod screw which is included.

Cable Management

Just drop the cables down through the pole to terminate to the camera for a professional look. Cables are out of sight.

Camera Tilt

The bottom bracket is adjustable so you can direct the camera where you need to.
