

Double-articulated desk mount with laptop tray  
Adjustable side clamps to secure laptops  
For laptops from 292-430 mm (11.5-16.9") wide  
Shelf size: 292 x 275 mm (11.5 x 10.8") deep  
Unique Quick-Clamp  
Parts included for grommet fixing to desk

In use cases where users have shallow desks dual-arm mounts occupy too much depth. Those users are better served by two single-arm mounts – one to support the display, and another for the laptop. Two independent arms also allow more placement flexibility. This product combines the standard desk arm with a shelf (which comes in separate carton).

Vision have obsessed over the detail to make this product quick and easy to install.

### Components included:

#### Premium Construction

Aircraft-grade aluminium arms are finished with a white anti-scratch surface.

#### Quick- Clamp

The clamp has a quick-release to adjust quickly for varying table thicknesses as thin as 14 mm (0.44").

#### Thumbscrews

Includes thumbscrews so you can be done faster, with fewer tools.

#### Quick Release

The laptop tray fixes to the desk post's VESA plate – where the display would normally fix – which is quick-release.

#### Adjustable Dampers

To allow for different loads the dampers can be tightened or loosened to make sure the display stays where it is when you let go of it.

#### SWL 4.5 kg

This mount can support laptops up to 4.5 kg (9.9lbs).

#### Vents

Slots in the shelf keep the device cool, maximising airflow.

#### Foam Dots

High-density foam dots help to isolate vibration and keep the device in place. They also hold tablets off the tray to help airflow.

#### Double-Pivot

Two articulated points in the horizontal arm allow a huge range of positioning. The arm reach is up to 460 mm (18").

#### Cable Management

Cables can be routed along the arm.

#### Grommet Included

In some applications you might prefer to drill a hole in the table and fix the mount directly.

#### Swivel and Tilt

The ultra-flexible design allows -45-45° of tilt adjustment, and -90-90° of swivel range.

**Rotate**  
Easily move the shelf from landscape to portrait style.

**Maximum Height**  
The maximum height from the desk top to the shelf is 510 mm (20.1"). Maximum reach is 622 mm (24.5").
