

- Double-articulated desk mount for flat panels up to 27"
- Converts to laptop or tablet shelf
- VESA plate cover included
- Cable management
- Comes with clamp and grommet fixing options

Vision's VFM-DAD/4 Dual Desk Arm ensure any workspace can enjoy both a clear-desk aesthetic and ergonomic working conditions without compromise. It raises the monitors off the desk surface, or one arm can convert to a laptop or tablet shelf supporting clutter-free working and smaller desk areas.

Each user is able to easily adjust the monitor position to suit their needs, thanks to its innovative weight-compensating spring and tilt-rotate-swivel and height adjustment – ensuring all users benefit from a more comfortable and better working posture.

As well as high-end features the arm is manufactured from premium materials, but through careful design we have been able to keep it very affordable.

The desk arm fits any 17- to 27-inch flat-panel monitor with 100x100 rear mounting holes and a weight no greater than 7kg (15.4lbs) per screen.

### Counter-Balancing Spring

We've swapped out the usual expensive gas struts that tension the desk arm for a spring mechanism. Not only is this much cheaper, it automatically counter-balances the load within a range of 2-7kg (4.4-15.5lbs).

### Rotate to Portrait

Every user is able to position monitor easily positioned to suit using the almost endless tilt, rotation, swivel and height adjustment provided.

### Load Adjustment

For lightweight loads like tablets, the bolts on the sides of the arm can be tightened down to stop the arm rising.

### Laptop or Tablet shelf

Convert the mount into a convenient shelf for laptop or tablet using the provided extension strips with grippy silicon pads.

### VESA Covers

For an enhanced finish in installations where the rear of the display is on view, hide the ugly VESA mounts using the provided covers - ideal for retail and public-facing environments.

### SWL 7 kg

The VFM-DAD/4 can support two monitors up to 7 kg (15.4 lbs) each.

**Fits Displays Up to 27-inch**

Works for displays from 17- to 27-inch with 100x100 VESA mounting holes. It will also safely support any larger display with the same mounting points and SWL.

**Cable Management**

Clips are provided for tidy cable routing.

**Clamp or Grommet**

All the parts required to clamp the arm to the edge of a table surface or bolt to the table are provided. (Note: grommet installation requires the drilling of holes in the table.)

**Reduced Cost of Ownership**

Its durable design ensures it will not need replacing for many years. It is easily and quickly installed, adjusted and moved. Together this delivers a very low cost of ownership.

**Thumbscrews**

Thumbscrews are used to fix the display to help speed up the installation of this mount.

**Independent Arms**

Move each arm up and down independently to get the right ergonomic setup.

## SPECIFICATIONS

**PRODUCT DIMENSIONS**

see image

**PACKAGED DIMENSIONS**

390 x 245 x 178 mm / 15.4" x 9.6" x 7.0" (length x width x height)

**PRODUCT WEIGHT**

4.5 kg (9.9 lbs)

**PACKAGED WEIGHT**

4.8 kg / 10.6 lbs

**TOTAL SAFE WORKING LOAD**

7 kg / 15.4 lbs per arm

**CONSTRUCTION MATERIAL**

Aluminium, Steel

**COLOUR**

Matt black

**VESA SIZES**

100 x 100 mm / 3.9" x 3.9" 75 x 75 mm / 3.0" x 3.0"

**ACCESSORIES INCLUDED**

8 x M4 12mm thumbscrews 8 x M5 12mm thumbscrews 8 x M5 10mm screws for laptop strips 4 x Laptop shelf strips with silicon 2 x VESA Cover

**WARRANTY**

Lifetime return-to-base

**COMPLIANCES**

RoHS, REACH
