

Dual arm double-articulated desk mount
 One arm supports a display up to 34",
 One arm has a laptop tray
 Adjustable side clamps to secure laptops
 For laptops from 292-430 mm (11.5-16.9") wide
 Shelf size: 292 x 275 mm (11.5 x 10.8") deep
 Unique Quick-Clamp
 Parts included for grommet fixing to desk

Correct ergonomics are essential to avoid injury and maximise productivity. People who use a laptop (or tablet) with a second computer monitor should have their laptop screen at the same height as the monitor and have a separate keyboard on the desk. This mount combines the standard dual-desk arm with a shelf (which comes in separate carton).

Vision have obsessed over the detail to make it as quick and easy to install.

Components included:

VESA

The arms offer a massive range of movement, and the VESA mount fits any monitors which have 75 x 75 mm or 100 x 100 mm rear mounting holes.

Premium Construction

Aircraft-grade aluminium arms are finished with a white anti-scratch surface.

Quick- Clamp

The clamp has a quick-release to adjust quickly for varying table thicknesses as thin as 14 mm (0.44").

Thumbscrews

Includes thumbscrews so you can be done faster, with fewer tools.

Quick Release

The laptop tray fixes to the desk post's VESA plate – where the display would normally fix – which is quick-release.

Adjustable Dampers

To allow for different loads the dampers can be tightened or loosened to make sure the display stays where it is when you let go of it.

SWL 4.5 kg

This mount can support a laptop up to 4.5 kg (9.9lbs), and a display up to 8.0 kg (17.6 lbs).

Display Size 10-34"

The recommended maximum size is 34", but if a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

Vents

Slots in the shelf keep the device cool, maximising airflow.

Foam Dots

High-density foam dots help to isolate vibration and keep the device in place. They also hold tablets off the tray to help airflow.

Double-Pivot

Two articulated points in the horizontal arm allow a huge range of positioning. The arm reach is up to 460 mm (18").

Cable Management

Cables can be routed along the arm.

Grommet Included

In some applications you might prefer to drill a hole in the table and fix the mount directly.

Swivel and Tilt

The ultra-flexible design allows -45-45° of tilt adjustment, and -90-90° of swivel range.

Rotate

Easily move the shelf from landscape to portrait style.

Maximum Height

The maximum height from the desk top to the shelf is 510 mm (20.1"). Maximum reach of each arm is 622 mm (24.5").
