Fine independent height adjustment

The VFM-DPQ2 (Vision Flat-panel Mount – Desk Post Quad) offers a massive range of movement and fits any monitors which have 75 x 75 mm or 100 x 100 mm rear mounting holes. Vision have obsessed over the detail to make it as quick and easy to install.

Thumbscrews
Vision include more screws than other manufacturers to ensure you can successfully install your display with the screws included, and the screws are thumbscrews so you can be done faster, without a tool.

Quick Release
The VESA plates are quick-release to assist with fast assembly.

Optional Shelf
The shelf fixes to the mount's VESA plate and supports laptops or tablets from 240-420 mm (9.5-16.5") wide. Adjustable clamps help secure the device in place.

SWL 8 kg
The VFM-DPQ can support four monitors up to 8 kg (17.6 lbs) each.

Display Size 13-32"
If a larger **display** has the correct mounting points and weighs less than the SWL this mount can support it safely.

Double-Pivot
Two articulated points in each horizontal arms allow a huge range of positioning. The arm reach is up to 399 mm (15.7").

Cable Management
Clips on the arm secure cables which can be routed along the mount.

Variable Height
Slide the arm up and down the post, then lock off at required height. The post is 883 mm (34.8") tall.

Desk Thickness
The clamp fixes to a table from 10-88 mm (0.4-3.5") thick.

Grommet Included
For some applications you need to drill a hole in the table and fix the mount directly.

Swivel and Tilt
The ultra-flexible design gives -45°~45° of tilt adjustment, and -90°~90° of swivel range.

Rotate
Easily move the monitor from landscape to portrait style.

Scratch-Resistant
The powder-coated surface is thicker and more scratch resistant than paint.

Independent Height Adjustment
Fine height adjustment of each monitor allows the installer to get perfect height alignment.
