

Freestanding desk stand for displays up to 32"

Black (only)

Full adjustment: height, rotation, swivel

Quick release VESA plate

Thumbscrews for fast assembly

The VFM-DS (Vision Flat-panel Mount – Desk Stand) takes the popular desk post mount and replaces the clamp with an attractive flat base. It fits any monitor which has 75 x 75 mm or 100 x 100 mm rear mounting holes. Vision have obsessed over the detail to make it as quick and easy to setup.

Thumbscrews

Vision include more screws than other manufacturers to ensure you can successfully install your display with the screws included, and the screws are thumbscrews so you can be done faster, without a tool.

Quick Release

The VESA plate is quick-release to assist with fast assembly.

SWL 8 kg

The VFM-DS can support monitors up to 8 kg.

Display Size 13-32"

If a larger display has the correct mounting points and weighs less than the SWL this stand can support it safely.

Cable Management

Clips on the arm secure cables which can be routed along the mount.

Variable Height

Slide the arm up and down the post, then lock off at required height. The post is 452 mm tall.

Swivel and Tilt

The ultra-flexible design gives -45°~45° of tilt adjustment, and -90°~90° of swivel range.

Rotate

Easily move the monitor from landscape to portrait style.

Scratch-Resistant

The powder-coated surface is thicker and more scratch resistant than paint.
