Desk stand with laptop tray
Shelf has adjustable clamps to secure laptop
For laptops from 240-420 mm (9.4-16.5") wide
Shelf size: 300 mm (12") wide x 280 mm (11") deep
Post Height: 443 mm (17.4") tall
Black (only)

In use cases where users have shallow desks dual-arm mounts occupy too much depth. Those users are better served by two single mounts – one to support the display, and another for the laptop. Two independent desk stands allow more placement flexibility. This product combines the Vision's desk post mount with a laptop shelf (which comes in separate carton).

Vision have obsessed over the detail to make it as quick and easy to install.

Thumbscrews

Includes thumbscrews so you can be done faster, with fewer tools.

Quick Release

The laptop tray fixes to the desk post's VESA plate – where the display would normally fix – which is quick-release.

SWL 4.5 kg

This mount can support laptops up to 4.5 kg (9.9lbs).

Vents

Slots in the shelf keep the device cool, maximising airflow.

Foam Dots

High-density foam dots help to isolate vibration and keep the device in place. They also hold tablets off the tray to help airflow.

Cable Management

Clips on the arm secure cables which can be routed along the mount.

Variable Height

Slide the arm up and down the post, then lock off at required height. The post is 443 mm (17.3") tall.

Swivel and Tilt

The ultra-flexible design gives -45°~45° of tilt adjustment, and -90°~90° of swivel range.

Scratch-Resistant

The powder-coated surface is thicker and more scratch resistant than paint.
