

Freestanding desk stand for two displays up to 27"  
Premium gas-strut height adjustment  
Black (only)

The VFM-DSDG (Vision Flat-panel Mount – Desk Stand Dual Gas) combines premium materials and parts with sharp design. It fits two monitors which have 75 x 75 mm or 100 x 100 mm rear mounting holes. Vision have obsessed over the detail to make it as quick and easy to setup.

#### Gas Spring

This mechanism supports the weight of the display at any height. Just move it up or down and let go and it will stay where it is.

#### Height Adjustment

The centre of the display can be positioned from 352-462 mm (13.9-18.2") above the desk.

#### Width Adjustment

The VESA mounts slide along the horizontal rail and can be adjusted from 207-665 mm (8.1-26.1") apart. This makes the maximum width of a display 665 mm (26.1").

#### Thumbscrews

Vision include more screws than other manufacturers to ensure you can successfully install your display with the screws included, and the screws are thumbscrews so you can be done faster, without a tool.

#### Quick Release

The VESA plate is quick-release to assist with fast assembly.

#### SWL 6 kg

The VFM-DSDG can support monitors up to 6 kg (13.2 lbs) per display.

#### Display Size 17-27"

If a larger display has the correct mounting points and weighs less than the SWL this stand can support it safely.

#### Cable Management

Clips on the upright secure cables which can be routed along the mount.

#### Swivel and Tilt

The ultra-flexible design gives -20°~20° of tilt adjustment, and -10°~10° of swivel range.

#### Rotate

Easily move the monitor from landscape to portrait style.

#### Scratch-Resistant

The powder-coated surface is thicker and more scratch resistant than paint.
