Premium aluminium desk stand with laptop tray
Gas-strut height adjustment with lock-off lever
One arm supports a display up to 27"
One arm has a laptop tray
Shelf has adjustable clamps to secure laptop
For laptops from 240-420 mm (9.4-16.5") wide
Shelf size: 300 mm (12") wide x 280 mm (11") deep
Column Height: 408-518 mm (16.1-20.4") tall
Black (only)

Correct ergonomics are essential to avoid injury and maximise productivity.

Laptop users with a second computer monitor should have their laptop screen at the same height as the monitor and have a separate keyboard on the desk. This mount combines Vision's premium dual-desk stand with a laptop shelf (which comes in separate carton).

Gas Spring

This mechanism supports the weight of the display in a smooth motion. Just move it up or down then lock it off.

Height Adjustment

The centre of the display can be positioned from 352-462 mm (13.9-18.2") above the desk.

Width Adjustment

The VESA mounts slide along the horizontal rail and can be adjusted from 207-665 mm (8.1-26.1") apart. This makes the maximum width of a display 26.1".

Quick Release

The laptop tray fixes to the desk post's VESA plate – where the display would normally fix – which is quick-release.

Thumbscrews

Includes thumbscrews so you can be done faster, with fewer tools.

SWL 6 kg

The VFM-DSDG can support laptops up to 4.5 kg (9.9lbs) and a monitor up to 6 kg (13.2 lbs).

Vents

Slots in the shelf keep the device cool, maximising airflow.

Foam Dots

High-density foam dots help to isolate vibration and keep the device in place. They also hold tablets off the tray to help airflow.

Cable Management

Clips on the upright secure cables which can be routed along the mount.

Swivel and Tilt

The ultra-flexible design gives -20°~20° of tilt adjustment, and -10°~10° of swivel range.

Rotate

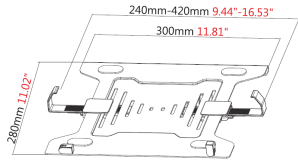

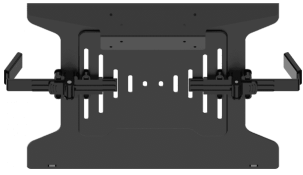

Easily move the monitor from landscape to portrait style.

Scratch-Resistant

The powder-coated surface is thicker and more scratch resistant than paint.
