

EXPRESS DESK MOUNT

VISION

Effortless Installation. Seamless Integration.

The Vision Express Desk Mount offers unparalleled flexibility, seamlessly integrating into credenza-based meeting rooms for a streamlined setup and intuitive operation. Designed for effortless deployment, this innovative solution enables sophisticated

video conferencing on any table, in any space, without the need for construction. As the first purpose-built tabletop mount for conferencing, Vision Express is the ideal choice for rapid and hassle-free video enablement.

Optimized for any screen size

Vision's express supports a variety of VESA-compatible screens (200x200 to 400x400), accommodating 43", 49", 55", and 65" displays on a single chassis. Whatever your setup, Vision's Express Desk Mount ensures a perfect fit.

Adaptable camera options

Vision's Express is fully compatible with leading AV hardware from Logitech, Poly, Cisco, Lenovo, and Neat. Cameras can be positioned above or below the screen to suit any room configuration.
