Mounting points up to 600 (wide) x 400 mm (tall) apart
SWL 80 kg / 176 lb
1500 mm (59") tall
Cable management channel

In today's retail landscape digital signage has become a vital element of innovative design. This elegantly crafted solution empowers AV integrators to effortlessly create dynamic, professional installations that captivate shoppers and elevate the brand experience.

Unleash your creativity to create eye-catching displays.

Optional Back to Back

This stand comes with one wall mount but for applications that require two back-to-back displays simply add another VFM-W6X4 to the other side of the post.

Meeting Room Ready

Many meeting rooms have walls you can't fix a heavy interactive display to. This column provides a stable load-bearing structure for installing a large display anywhere in the room.

Retail Ready

Perfect for shop front window displays, or any digital signage application where you can get creative with displays.

Cable Management

An internal cable channel measures 60 x 75 mm (2.4" x 3.0"), allowing space for power cables etc.

Rear Cover

A curved rear cover conceals any clutter.

Portrait

While this stand is optimised for portrait orientation, there is nothing to stop you using it in landscape if you choose.
