

Portable floor stand for displays up to 50 kg
Fits displays with VESA sizes up to 600 x 400 mm
For 31-80" Displays subject to VESA pattern and weight limit
Display rotates to portrait
Height adjustable by hand crank
Large 4" wheels
Shelves included

Vision's F21 cart replaces the best-selling F20 with an even stronger and more rigid structure. The height-adjusting hand crank features a completely redesigned mechanism that is easier to operate and more reliable. Like all Vision products, it includes all necessary components and comes with an unbeatable lifetime warranty.

These attractive floor stands are ideal for AV rentals, event centres, healthcare facilities, schools, or any setting where large format displays are used across various meeting areas.

SWL 50 kg (110 lbs)

The sturdy steel frame can support displays that weigh up to 50 kilograms. For heavier displays choose the VFM-F26.

31-80" Displays

The suitability of a stand is also determined by the weight of the display and the dimensions of the mounting points. Displays that weigh under 50 kg and have a VESA pattern up to 600 x 400 mm are compatible with this stand.

Rotate to Portrait

This cart is ideal for users who require the ability to rotate their display 90 degrees.

Large 4" Wheels

The 4-inch (100 mm) casters ensure the cart glides easily over thick carpet and minimizes vibration to sensitive electronic equipment. All four wheels can be locked.

Adjustable Height

Turn the crank handle located at the back of the column to adjust the display height by 400 mm (16 inches).

Tilt

The VESA mount is adjustable and can be tilted downwards to prevent reflections from overhead lighting.

Two Shelves

The cart includes one shelf for a video conference camera above the display and a larger one below for laptops and other equipment. Both shelves are height adjustable.

Mini PC Mount

VESA100 mounting holes and M4 stand-offs are provided, allowing for attachment of a mini-PC, such as a Dell Optiplex or Intel NUC, to the VESA mount behind the display.

Cable Management

Vision considers every detail! Included are stick-on cable clips that allow for discreet cable routing up the column.

PACKAGED DIMENSIONS

1270 x 380 x 240 mm / 50.0"x 15.0"x 9.4" (length x width x height)

PRODUCT WEIGHT
