

Premium Portable floor stand for displays up to 60 kg
Fits displays with VESA sizes up to 600 x 400 mm
For 31-80" Displays subject to VESA pattern and weight limit
Display rotates to portrait
Height adjustable by hand crank
Premium 4" wheels
Extra wide video bar shelf

The Vision F22 floor stand is like the standard F21 but elevates with a premium aluminium column and better components which enhance rigidity. It boasts a larger bottom shelf, suited to accommodating Zoom and Teams video bars. Height-adjustment is with a simple-to-use hand crank. It comes complete with all required components and offers an unparalleled lifetime warranty.

These elegant floor stands are ideal for AV rentals, event centres, meeting room facilities, boardrooms, schools, or any setting where large format displays are used across various meeting areas.

SWL 60 kg (132 lbs)

The premium aluminium and rigid steel frame can support displays that weigh up to 60 kilograms. For heavier displays choose the VFM-F27.

31-80" Displays

The suitability of a stand is also determined by the weight of the display and the dimensions of the mounting points. Displays that weigh under 60 kg and have a VESA pattern up to 600 x 400 mm are compatible with this stand.

Rotate to Portrait

This cart is ideal for users who require the ability to rotate their display 90 degrees.

Premium 4" Wheels

The 4-inch (100 mm) casters ensure the cart glides easily over thick carpet and minimizes vibration to sensitive electronic equipment. All four wheels can be locked.

Adjustable Height

Turn the crank handle located at the back of the column to adjust the display height by 400 mm (16 inches).

Tilt

The VESA mount is adjustable and can be tilted downwards to prevent reflections from overhead lighting.

Camera Shelf

The cart includes a small top shelf for a video conference camera above the display. Both shelves are height adjustable.

Mini PC Mount

VESA100 mounting holes and M4 stand-offs are provided, allowing for attachment of a mini-PC, such as a Dell Optiplex or Intel NUC, to the VESA mount behind the display.

Cable Management

Vision considers every detail! Included are stick-on cable clips that allow for discreet cable routing up the column.

Conference Bar Shelf

The generous bottom shelf, measuring 800 mm (32 inches) in width and 250 mm (10 inches) in depth, is designed to accommodate Teams or Zoom video bars beneath the display. It can also serve as a convenient place for laptops.

SPECIFICATIONS

PACKAGED DIMENSIONS

1315 x 520 x 245 mm / 51.8"x 20.5"x 9.6" (length x width x height)
