

Large-format flat panels 37-90"
(subject to VESA pattern and weight limit)
VESA 800 (wide) x 600 mm (tall)
Lifts up to 130 kg (286 lb)
800 mm (31.5") height adjustment

The VFM-F30/FP is a powerful, attractive motorised freestanding floor stand for large displays. This premium mount has unobtrusive design elements and a hidden motor which help it blend in instead of dominating a room - essential for high quality boardroom and meeting space decor.

Installation is super-fast; just take it out of the box, attach the flat-panel mount, and fix the base assembly. Vision's floor stands transmit the load of the heavy display safely to the floor.

Components included:

Heavy Duty

The F30 uses heavy-gauge components to take up to SWL 130kg (286 lbs), and a powerful linear drive which moves at 16 mm (0.6") per second.

For 37-90" Displays

Fits most displays from 37-90" subject to VESA pattern and weight limit. Note: curved screens are not supported by this mount.

800 mm / 31.5" Motorised Height Adjustment

The columns move up and down with 800 mm / 31.5" of range. With no pinch-points this is a very safe design.

Telescopic Columns

The tolerance of the telescopic legs is exceptional, resulting in smooth motion with no unwanted wobble at the screen.

Wireless Control

A remote control is included with simple up and down functions, plus two programmable memory positions. *Note: users should not rely on memory to lower the stand in case of harm or injury.*

Adjustable Feet

Use the adjustable feet to allow for a sloping floor, or take them off to get the floor plate as low as possible.

Safety Stop

A safety stop is triggered when the display lowers onto hard furnishings. Note soft items may fail to trigger the stop. Care should be taken whenever moving the display down.

Cable Management

Dual cable strips on the rear keep the cables tidy, and a spring-loaded reel helps keep slack cable out of sight when the display is lowered.

Media Player Fixing

Media players can be fixed to the wall bracket assembly out of sight.

VESA 800 x 600

This product includes Vision's heavy-duty VFM-W8X6 wall mount which fits most large-format flat panels from 37-80". Vision's larger VFM-W10X6 wall bracket can also fix to this column, or the smaller VFM-W6X4 and VFM-W4X4.

Optional Laptop Shelf

An optional shelf fixes at four different heights in 80 mm (3.1") increments to the horizontal part of the wall mount. The platform is 450 mm (17.7") wide by 306 mm (12.0") deep. At the lowest height setting the shelf is 680 mm (26.8") below the centre of screen. *Part Number: VFM-WLS [EU SAP: 4857149 / US SAP: 13557610]*

Optional Video Conference Shelf

This shelf fixes in the centre above or below the display. It accommodates cameras such as Logitech's Rally, and also Logitech's Meetup, Yamaha's YVC-1000, or Barco's Clickshare CSE-200 base stations. With VESA100 holes on the vertical section, product's like iPad enclosures can be fixed above or below the display. *Part Number: VFM-WVC [EU SAP: 5048878 / US SAP: 13557673]*

Display Secured in Place

The display latches into place on the floorstand.
