

Wall Mount for displays with mounting points up to 600 x 400mm apart
Pop-out style for fast access and adjustment
Tool-free tilt, rotation, depth, and height adjustment
Displays 45-86"
Lockable

Aligning displays on a video wall is painstaking, so every detail has been thought about on this mount to ensure it is as fast as possible to install, and as easy as possible to adjust with precision.

This is a full service video wall mount with tool-free micro adjustment and easy access to the rear of the display for serviceability.

Landscape or Portrait

This mount supports displays in either portrait or landscape. In portrait format the display must be more than 650 mm wide and must be VESA 400 x 400 mm or less.

Minimal Tools

Wherever possible Vision uses thumbscrews which dramatically speed up installation and help with faster adjustment. The adjustment dials on this product can be turned easily by hand.

Display Fixing Screws

Vision include more screw sizes than other manufacturers to ensure you get that display on the wall as quickly as possible every time.

Pop-out Quick-Release

A light push on the display releases the scissor pop-out mechanism, pushing the display out towards you. Plastic tongues are included which are put into place once you are done to avoid accidental pop-outs.

Adjustment Planes

Using the easy hand-adjustable plastic dials you can adjust tilt (-3° to 2°), rotation, height, and depth. For speed you can also use a hex bit in a power drill to turn these.

45-86" displays

Fits any flat-panel LCD or LED screen which has rear mounting holes up to 600 wide x 400mm tall apart.

Depth

The minimum depth in place is 120 mm, and when it pops out it comes out 325 mm.

Lockable

It latches into place and can be locked with a padlock (not included) for further security.

Kickstand

With the display popped out, you can then pull the bottom of the display out to make access to cable ports even easier. A kickstand holds it at 10° while you work on it.

SPECIFICATIONS

PRODUCT DIMENSIONS

640 x 544 x 120~325mm (height x width x depth)

PACKAGED DIMENSIONS

585 x 566 x 135 mm
