

Wall Mount for large flat panel displays with mounting points up to 1200 x 600mm apart

Heavy Duty 100kg SWL

Locking anti-theft mechanism

Tilting

Vision's VFM (Vision Flat-Panel Mount) range is tough, flexible, and quick to install. The VFM-W12X6T fits very large flat-panel LCD or LED screens which have rear mounting holes up to 1200 wide x 600mm tall apart.

#### Tilting

The tilting mechanism allows 15° up, and 15° down movement on the vertical plane.

#### SWL 100kg

Vision's VFM-W12x6T uses heavy gauge 3mm sheet metal to take the weight of large flat-panels and even heavy interactive displays.

#### Universal

It fits most displays from 57-90", including Microsoft's 84" Surface Hub which uses 1200 x 600mm mounting points, and Promethean's V5 70" which uses 400 mm wide x 600 mm tall mounting points. Click [here](#) to look up the VESA size of your flat panel.

#### Simple Installation

A proven design allows fast fixing, and slotted holes on the wall part allowing levelling and side to side adjustment after fixing.

#### Secure

Once in place a locking mechanism automatically engages. It can be released by a pull-string.
