

VESA Wall Mount for medium-large LCD screens

Fits displays with 50 x 50, 75 x 75, 100 x 100, 200 x 100, and 200 x 200mm mounting holes

Locking anti-theft mechanism

This **Vision Flat-Panel Mount** is robust and simple. It fits any flat-panel LCD or LED screen which uses a standard VESA mounting configuration up to "VESA 200"- which are 200 x 200mm tall apart.

### SWL 30 kg

Most desktop monitors are very lightweight, but interactive displays and kiosk touch-panels are much heavier. Vision's VFM-W2x2 can take up to 30 kg – sufficient to support most monitors that ranges from 14" to 42".

### Shallow

The thin design holds the display close to the wall. This looks better, reduces snagging risk, and because the load is close to the wall the mount has a higher safe working load rating.

### Simple Installation

A proven 2-part design allows fast fixing, with slotted holes on the wall part allowing levelling adjustment after fixing.

### Secure

Once in place a locking screw is fitted to avoid theft.
