

Double-articulated wall mount for flat panels up to 30"
 Cable management and adjustable dampers
 Premium Aluminium construction

Vision's **Vision Flat-Panel Mount – Wall** range is tough and flexible. The VFM-WA1X1 (wall arm) fits any flat-panel LCD or LED screen which has 100 x 100mm rear mounting holes – most computer monitors.

SWL 9 kg
 The VFM-WA1X1 can support monitors up to 9 kg (20 lb). Note: if a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

Adjustable Dampers
 To allow for different loads the dampers can be tightened or loosened to make sure the display stays where it is when you let go of it.

Cable Management
 Clip on covers allow tidy cable routing.

Sit Stand
 Complements Vision's wall-mount shelf VFM-WS for a sit-stand setup.

Freedom of Movement
 Almost endless tilt, rotation, swivel, and height adjustment puts the display right where you need it.

Maximum Height
 The maximum height from the wall anchor to the centre of the screen is 430 mm (17"). Reach is as much as 620 mm (24.4").

SPECIFICATIONS

PRODUCT DIMENSIONS
