

Double-articulated wall mount for flat panels that ranges from 37" to 60"
Reach 39-402 mm (1.5-15.8")

Vision's **Vision Flat-Panel Mount – Wall Arm** range is tough and flexible. The VFM-WA4X4/3 fits any flat-panel LCD or LED screen which has rear mounting holes up to 400 x 400 mm apart.

Up to 60"

Most medium-to-large displays use VESA 400 or similar mounting points, so the WA4X4 fits the majority of displays up to this size.

Note: if a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

Manoeuvrable

The single-arm design makes this mount especially flexible without compromising the load capacity of 20 kg (44.1 lb).

Fast Installation

The mounting plate fixes to the back of the display, then just drop the display into place on the wall arm and lock in place with a single nut.

Rotation

Didn't fix the wall plate perfectly plumb? No problem! 6° of rotation allow you to get the display level easily once the display is in place.

Tilt and Swivel

-2-12° tilt and 90° swivel. Use this mount to fix a display in a corner up high in a waiting room. Or fix displays around an office or in meeting rooms.

VESA

The VESA system defines how far apart the mounting holes are on the back of your flat-panel. Holes 400 x 400 mm apart are known as VESA 400 and will suit this mount. This product also fits displays with smaller VESA sizes listed below.

Cable Management

Clip-on covers allow tidy cable routing.

Thumbscrews

Thumbscrews are used to fix the display to help speed up the installation of this mount.
