

Double-articulated wall mount for flat panels that ranges from 42" to 70"

Sturdy 2.5 mm thick rolled steel

Reaches 55-356 mm (2.2-14.0")

Vision's **Vision Flat-Panel Mount – Wall Arm** range is tough and flexible. The VFM-WA6X4V2 fits any flat-panel LCD or LED screen which has rear mounting holes up to 600 x 400 mm apart.

Up to 70"

Most larger displays use VESA arrangement of mounting points up to 600 x 400 mm apart, so the VFM-WA6X4V2 fits the majority of displays up to this size. Note: if a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

Safe Working Load

The strong mechanical design has a "safe working load" of 20 kg (44.1 lbs).

Rotation

Didn't fix the wall plate perfectly plumb? No problem! 6° of rotation allow you to get the display level easily once the display is in place.

Tilt and Swivel

-2-12° tilt and 90° swivel. Use this mount to fix a display in a corner up high in a waiting room, or fix displays around an office or in meeting rooms.

VESA

The VESA system defines how far apart the mounting holes are on the back of your flat-panel. Holes 600 x 400 mm apart are known as VESA 600×400 and will suit this mount. This mount also covers all smaller VESA sizes.
