

Double-height "Boost" Folding design

Angle adjustment

Comes with travel bag

Highly portable

Vision Laptop Mounts are renowned for their superior quality and design. Unlike many laptop stands that are often unattractive and lack essential features, Vision prioritizes the users in the design process. The result is a range of attractive and genuinely useful laptop stands.

Designed for laptop users on the go, this folding stand offers the convenience of creating an ergonomic setup anywhere you need it.

Lightweight

Crafted from lightweight aluminium alloy, this ingenious stand is exceptionally portable. It effortlessly fits into a laptop bag, making it highly convenient to carry around.

Adjustable angle

Adjusting the angle to suit individual preferences is effortless, allowing users to set up their laptop screen just the way they like it.

Scissor Action

No assembly is required as it comes fully assembled and ready to snap open for immediate use.

Non-Slip

The stand features silicon pads that prevent it from sliding on the table and securely hold the laptop in place.

Portable ergonomics

Ergonomics is essential for everyone! Whether you travel for work or frequently use hot-desks, bringing your laptop stand along will help save your back and neck from discomfort and pain.

2-stage Boost

Thanks to its double-pivot design, the laptop stand elevates the laptop from the desk, achieving a "boosted" height position. This adjustment enables the laptop screen to be perfectly level with the user's eyes, promoting better ergonomics.

Heat Management

With minimal contact points, the laptop can cool naturally, ensuring efficient heat dissipation.

SPECIFICATIONS

PRODUCT DIMENSIONS

315 x 279 x 199 mm / 12.4" x 11.0" x 7.8"

PACKAGED DIMENSIONS

295 x 57 x 38 mm / 11.6" x 2.2" x 1.5"

PRODUCT WEIGHT
