

Adjustable tilt angle
Variable height
Works with any iPhone or Android phone
Rotation

Discover the accessory you never knew you needed! For anyone working at a desk, this phone stand quickly becomes an essential tool.

It lifts your phone above the desk surface, angling the screen towards you for easy access. Having your screen at the right angle proves surprisingly useful. The stand firmly holds your phone in place, allowing you to tap and interact with the screen without worrying about tipping it over.

Aluminium

Crafted with premium materials, this stand perfectly complements the modern look and feel of smartphones.

Non-Slip

Silicon pads on the stand prevent sliding on the table and securely hold the phone in place.

Round Base

The base strikes a perfect balance, offering stability while occupying only a small portion of your desk. Its simple round design is timeless and free from any unsightly shapes or cut-outs.

Turntable

The entire assembly turns with ease, allowing you to effortlessly share information on your screen with others.

Height Adjustment

You'll be pleasantly surprised by the significant difference it makes when you lift your phone just a little bit off the desk. With the phone raised, you can easily glance down in an instant. The added elevation enhances convenience and comfort.

MagSafe Compatible

Ready to work with any iPhone or iPhone Max.

Android Compatible

Includes two adhesive magnets which stick to the back of your phones.
